

**We'll Do Everything  
Walmart Did For  
Your Medical Billing,  
Except Unplug You.**

# FREE opticXpress<sup>SM</sup> Software

by RLR Consulting

No matter how good a provider and comprehensive its services, ultimately it will have failed you if it withdraws its support. RLR Consulting with its proprietary software opticXpress<sup>®</sup> will track your patient accounts (receivables, insurance balances and write-offs). It'll also do all your posting based on data supplied by your office and your patients' carriers uploaded from your computer or laptop – by the claim or at a very low monthly rate. Call 866-688-3335 for a quotation and no-risk trial today!
